## SABYTEL

Sabytel offers cybersecurity solutions and provide you, as an individual or as an organization, with a selection of available ISO training and certifications so that you can be confident that you or your organization have the capabilities and are cognizant of your responsibilities to your industry. Sabytel believes that certification and compliance are one step towards protecting your future.

Sabytel also offer tailored, highly focused and contextualized cybersecurity seminars for senior management and executives to understand their own specific cyber environment. This education aims at providing current real-world discussion and training in cybersecurity issues threatening your employees, clients and business.

Sabytel provides planning services to help you to assess and understand your current state including strengths and areas to improve and will provide guidance on the way forward. After the planning, in collaboration with your organization, we provide the technical expertise and capabilities to enable and support the implementation of a solution and the education and training to do it right.

Equally advantageous are Sabytel's array of skill sets and experience covering the spectrum of cybersecurity activities upon which the contractor can call, that effectively gives the client a unique expertise in all areas of the discipline. Sabytel operates on a team principle and every project has the knowledge and experience of all its resources backing up the contracted resources. This allows every individual to provide expert services for any type of cybersecurity situation from planning through implementation and certification to in-service operations. The proof of this advantage is in a long list of satisfied clients through a vast array of engagements and projects and a pattern of repeat business and specific requests for our services.

Sabytel believes that cybersecurity should be an enabler and not be an impediment to your progress and our clients appreciate the distinction. Sabytel is uniquely positioned to tailor the ISO requirements to the relatively small size enterprise to the large corporation and provide a right-sized solution that will fit the available budget and corporate risk tolerance.

Amongst providing core services in ISO standards training, implementation and certification, we offer Cybersecurity Maturity Assessment, Network Security Design, , Risk Management, Threat and Risk Assessment, Certification and Accreditation (C&A), Security Assessment and Authorization (SA&A), IT Security Penetration Testing and Vulnerability Assessment, Privacy Impact Assessment, Cloud Computing Security Assessment, IT Security Reviews / Studies, Disaster Recovery, Business Resumption Planning, Performance Analysis, Enterprise Re-Engineering, Maturity Model, Gap Analysis Studies and Technical Project Management.

Our team has extensive expertise and knowledge of the NIST, Internet of Things (IoT) Security, Infrastructure Security, ISO standards including ISO/IEC 27001, 27002, 27005, 27017, 31000 and ISO 9001, Cobit5, ISA99 (ISA/IEC 62443 Standards), European General Data Protection Regulation (GDPR), ITIL, Agile methodology, Attack Tree-based Threat Risk Analysis and Cyber & ICT Security best practices.

## **THE STATURE OF THE PECB TRAINING COURSES**

We are at a time in which our own existence is changing under the influence of new technologies. For us at PECB, each perceived challenge opens up many new opportunities for offering excellent training courses — second to none.

The variety of advanced training courses and certification services we offer make decision-making easier for you to boost your career.

We continuously strive to translate our efforts and commitment to provide excellence in keeping our training courses updated with the latest trends, standards, best practices, and approaches. Our experts work tirelessly to bring valuable, sophisticated training courses, containing relevant information that meet your needs and serve as a reliable source of information; all that made possible through our customer-oriented approach at the core of our company culture.

With education being an ever-evolving space, and learners increasingly diverse in nature and preferences, we have options available that respond to each learner's need and preference of receiving information, from traditional and contemporary learning practices to innovative ones, offering a jump start on the path to excellence.

We listened and answered. Easing the road to success. Isn't that the ultimate goal?

## **CHOOSING THE BEST COURSE FOR YOU**

No matter your field of expertise, PECB has the right course for you. From Information Security Management to Business Continuity Management, Quality Management, Environmental Management and everything in between, PECB offers the best of it all.

Since choosing the right training course is very important, we simplify your choice by providing a multitude of training courses.

## PECB Training Course Delivery Formats

Education is an ever-evolving space. That is why in this increasingly diverse world of individuals and rapid digital transformation reshaping every aspect of our lives, the “one-size-fits-all” concept simply does not apply anymore. It is therefore imperative that each education provider understand how to embrace this trend by acknowledging, and most importantly, addressing the diverse nature, unique needs, and learning preferences of each individual.

We remain committed to acknowledge this multitude of different types of learners and help them all equally improve their skills and develop professionally and intellectually. In order to achieve this, and ensure that learning is enriching, PECB has options available that easily and effectively respond to each learner’s needs and preferences of receiving information.

Our training course delivery formats reflect an amalgamation of successful traditional, contemporary, and innovative learning practices. Take the next step in your education and competence development by learning more about our training course delivery formats.

Regardless of the training course format, all participants will have access to the training course material digitally via KATE. After completing the training course in any PECB training course delivery format, you can enter the exam from anywhere in the world through the PECB Exams app. Finally, those who successfully pass the exam can apply for certification.

### **Classroom**

Our classroom training courses are participant-centered and delivered in different venues worldwide by PECB Certified Trainers. This training delivery format can be especially beneficial for those wishing to learn through cooperative activities and group work as well as have interaction with peers, share experiences, ideas and opinions. This remains the most comprehensive format that allows participants to capture the entire experience of training.

### **Live Online**

Our live online training courses are synchronized events organized in a live virtual meeting room / classroom environment. These training courses offer an engaging and interactive learning experience led by PECB Certified Trainers via sophisticated tools that allow remote teaching. This training delivery format makes learning more accessible to our candidates in new ways, especially to those who do not have traveling as an option, or when late classes are the only feasible alternative.

### **Self-Study**

If you want to take a training course at your own pace and a place of your choice, you can engage in self-study, for which all that is needed is access to the PECB training course materials.

One of the major advantages of our self-study training course delivery format is that you can take control of your own learning and direct your own studying. This format is feasible for participants who have a considerable knowledge on the subject and do not require assisted lecturing.

### **eLearning**

The PECB eLearning training courses are neither location constrained nor time bound. This method is technologically enabled and is delivered by PECB Certified Trainers in pre-recorded video format. These training courses have been catered to meet each individual's needs and have been designed with the aim of transcending spatial and temporal restrictions. With the PECB eLearning, it has never been easier and more convenient to be a learner. You can take these training courses on any device and from any location that makes learning a comfortable experience owing to the flexibility and freedom it offers. Participants will take quizzes that will allow for interactivity and will be equipped with additional reading material to enhance their knowledge. For those interested, our Resellers also will provide additional Live Q&A sessions with competent trainers to offer additional coaching.

**These are core courses provided by Niskaa.**

**We provide training in other ISO standards offered by PECB.**

# **INFORMATION SECURITY AND RESILIENCE**

## INFORMATION SECURITY MANAGEMENT SYSTEMS BASED ON ISO/IEC 27001

### GETTING STARTED WITH YOUR ISO/IEC 27001 CERTIFICATION

The ever-evolving security landscape is constantly increasing the need for experts in this professional field. Getting started with your ISO/IEC 27001 certification shows that you are driven to acquire and demonstrate the skills, knowledge, and expertise to support an organization to successfully implement, manage and maintain an information security management system (ISMS) which as a result helps avoid threats, vulnerabilities, and possible negative impacts. This enables you to establish a systematic analysis of an organization’s information security risks and ensure the protection of the sensitive data. One of the major benefits for individuals who seek to pursue this certification is that the standard is recognized internationally as a best practice, allowing you to instill a continual improvement culture in organizations and ensure their compliance with regulations and requirements.

We have convenient solutions for all of you who wish to pursue a career in auditing too; carry out internal and external audits of an ISMS in an organization, by applying widely recognized audit principles, methodologies, and techniques in compliance with the respective ISO and other regulatory standards and frameworks.

### WHY GET ISO/IEC 27001 CERTIFIED

Information security management enables you to help organizations protect their data and privacy in the most efficient way. Considering the evolving cyber-attacks and their sophistication, the volume of valuable information handled by organizations, and the complexity of supply chains, organizations need to have a well-established security system and ISMS, and a competent team that ensure the protection of data. Getting certified against this standard demonstrates a commitment to information security at all levels of the organization and shows to your potential and existing customers your personal and the organization’s credibility and trustworthiness.

COURSE	BENEFITS	
ISO/IEC 27001 Lead Implementer	Develop the skills to support an organization in implementing and maintaining an Information Security Management System (ISMS) according to ISO/IEC 27001.	5 Days
ISO/IEC 27001 Lead Auditor	Acquire the knowledge and expertise to perform an ISMS audit by applying widely recognized audit principles, procedures and techniques.	5 Days

## INFORMATION SECURITY CONTROLS BEST PRACTICES BASED ON ISO/IEC 27002

### GETTING STARTED WITH YOUR ISO/IEC 27002 CERTIFICATION

This certification proves that you have acquired the necessary knowledge and skills to implement and manage information security controls based on ISO/IEC 27002 and enables you to apply the best practices of information security management in an organization. It also helps you to create a comprehensive framework and improve information security management within an organization by using potential controls that can identify risks and effectively manage them.

### WHY GET ISO/IEC 27002 CERTIFIED

Instead of focusing purely on technological solutions, the management of information security according to ISO/IEC 27002 provides a broader view of the security problems related to some of the most valuable assets — business information and any individual in an organization. ISO/IEC 27002 is designed for organizations that wish to develop, maintain, and optimize the information security management system based on an effective control structure. By getting this certification, you can support such organizations in implementing and managing information security controls as specified in ISO/IEC 27002. Establishing an information security management system (ISMS) and at the same time adopting the guidelines of ISO/IEC 27002, guarantees the continuity and maintenance of security processes, aligned with the strategic objectives of organizations

COURSE	BENEFITS	
ISO/IEC 27002 Manager	Develop the expertise on how to implement, operate, communicate and manage the Information Security controls in compliance with ISO/IEC 27002.	3 Days
ISO/IEC 27002 Lead Auditor	Master the concepts, skills, knowledge and techniques to implement and effectively manage Information Security controls based on ISO/IEC 27002.	5 Days

## INFORMATION SECURITY RISK MANAGEMENT BASED ON ISO/IEC 27005

### GETTING STARTED WITH YOUR ISO/IEC 27005 CERTIFICATION

PECB certifications are a mark of excellence. Regardless of the certification you choose to obtain in this scheme, it will prove that you have acquired the necessary knowledge and have developed the skills and competence to support an effective information security risk management process in an organization. In addition, you will obtain a comprehensive understanding of risk assessment methods such as OCTAVE, EBIOS, MEHARI, and harmonized TRA. Therefore, this certification will prove that you are able to identify, assess, analyze, evaluate, and treat various information security risks faced by organizations.

### WHY GET ISO/IEC 27005 CERTIFIED

Getting certified against this standard makes you a valuable asset for organizations as your expertise will help them integrate and manage information security based on a risk management approach, by providing the best practical guidance on risk assessment, with a focus on threats, vulnerabilities, likelihoods, and impacts. In addition, your expertise will help an organization to conduct an effective risk analysis in order to decide whether risks need to be treated and choose the most appropriate risk treatment strategies and methods.

COURSE	BENEFITS	
ISO/IEC 27005 Risk Manager	Develop the skills to carry out the risk management process related to Information Security assets in accordance with ISO/IEC 27005.	3 Days
ISO/IEC 27005 Lead Risk Manager	Acquire the expertise to support an organization in the Information Security Risk Management process using the ISO/IEC 27005 standard as a reference framework.	5 Days

## INFORMATION SECURITY INCIDENT MANAGEMENT BASED ON ISO/IEC 27035

### GETTING STARTED WITH YOUR ISO/IEC 27035 CERTIFICATION

This certification validates that you have the knowledge and skills to identify, manage, and prevent information security incidents in your organization. It also ensures that you have the expertise to continuously improve an Information Security Incident Management process and implement a detailed approach that will allow you to be prepared and know how to respond to such incidents and minimize risks. In addition, it demonstrates that you can help an organization to detect, report, and assess information security incidents in addition to responding and managing potential vulnerabilities

*“Damage related to cybercrime is projected to hit \$6 trillion annually by 2021.” (Cybersecurity Ventures)*

### WHY GET ISO/IEC 27035 CERTIFIED

This certification helps individuals become worldwide recognized security professionals and be capable of minimizing the effect of any incident in an organization. This certification is intended for all individuals with interest in information technology security who are eager to learn the utmost skills and knowledge to protect their organization from security incidents and reduce business financial impacts. With your expertise and skills gained in this training course, the organization you work for will acquire the competence to evaluate cost-benefits and resource-allocation based on incident-response and management capabilities, by which it will effectively respond to information security incidents.

COURSE	BENEFITS	
ISO/IEC 27035 Foundation	Gain knowledge on the main elements on implementing a Security Incident Management Plan and manage information security incidents	2 Days
ISO/IEC 27035 Lead Incident Manager	Gain the skills and knowledge to support an organization in implementing and managing an Information Security Incident Management Plan in accordance with the guidelines of ISO/IEC 27035	5 Days

## CYBERSECURITY BASED ON ISO/IEC 27032

### GETTING STARTED WITH YOUR ISO/IEC 27032 CERTIFICATION

Obtaining the ISO/IEC 27032 certification shows your commitment in your profession and validated skills and knowledge gained during this training course. It also proves that you have developed the required knowledge and skills to help an organization establish and manage a cybersecurity program, improve the state of cybersecurity, and successfully protect an organization's data from any actions that can cause incidents, attacks, and other disruptions. You will be able to successfully develop and maintain an effective cybersecurity program and draw together all the domains for an organization's maximum benefit.

*"According to Statista, global cybersecurity market size is forecasted to grow to €220 billion by 2023."*

### WHY GET ISO/IEC 27032 CERTIFIED

This certification will get you one step ahead with the developments in the field of cybersecurity. You will be equipped with the knowledge to proficiently manage and address cybersecurity issues in order to protect an organization's assets from potential harm. Such benefits come along with ISO/IEC 27032 guidelines which help to establish a consistent and iterative approach to manage cybersecurity issues and protect networks, computers and data from unauthorized access.

COURSE	BENEFITS	
ISO/IEC 27032 Foundation	Gain knowledge on the best practices, concepts, approaches, and techniques for the implementation and management of a cybersecurity program	2 Days
ISO/IEC 27032 Lead Cybersecurity Manager	Develop the skills necessary to address common cybersecurity issues and manage the implementation of a framework as specified in ISO/IEC 27032 and the NIST cybersecurity framework	5 Days

## LEAD CLOUD SECURITY MANAGER BASED ON ISO/IEC 27017

### GETTING STARTED WITH YOUR LEAD CLOUD SECURITY MANAGER CERTIFICATION

The Lead Cloud Security Manager certification based on ISO/IEC 27017 and ISO/IEC 27018 demonstrates your competence to implement and manage a cloud security program by following industry's best practices. By following a cloud management framework in effectively planning, implementing, managing, monitoring, and maintaining a cloud security program, you will be able to help organizations achieve the industry recommended best cloud practices and contribute to improving their overall security.

### WHY GET LCSM CERTIFIED

The COVID-19 pandemic accelerated the cloud adoption market in the 3rd quarter of 2020 by 33% to a total of \$36.5 billion, nine billion dollars higher from the same period last year. While the CISCO report predicts that by 2021, 94% of the internet workload will be processed in the cloud, the importance of creating a secure cloud infrastructure for the organizations of the future is crucial. The asset security of an organization is closely affected by the infrastructure on which they reside and the security that these infrastructures provide for them, in our case the cloud-based ones. By becoming a PECB Certified Lead Cloud Security Manager, you will acquire the necessary skills and knowledge to plan and implement a secure cloud infrastructure for these organizations, as well as manage and monitor their security continuously. This certification will help you to expand your professional knowledge and pursue a successful career in cloud security.

COURSE	BENEFITS	
ISO/IEC 27017/27018 Lead Manager	Acquire the necessary skills and knowledge to plan and implement a secure cloud infrastructure	5 Days

## LEAD NETWORK SECURITY MANAGER BASED ON ISO/IEC 27033

### GETTING STARTED WITH YOUR ISO/IEC 27033 CERTIFICATION

An ISO/IEC 27033 certification demonstrates your ability to help organizations design and implement network security and use or manage information system networks. By following PECB's structured approach to network security implementation, you will be able to learn how to interpret and implement ISO/IEC 27033 guidelines in the specific context of the organization. Based on best practices, the PECB approach will help you acquire the necessary knowledge on how to support the organization in achieving quality network security architectures and improving the overall network security.

### WHY GET ISO/IEC 27033 CERTIFIED

Every second, a huge amount of information is transferred from a device to another. Having these devices connected to other networks simplifies the process of accessing the information but it also increases the chance of this information being exposed. With the increasing reliance on technology, organizations nowadays aim to secure every aspect of their information. Information security is directly affected by the security of the devices on which it is contained and the security of communication links between these devices. By becoming a PECB Certified ISO/IEC 27033 Lead Network Security Manager, you acquire the required expertise to secure these communications in addition to implementing and managing the network security within the organization. This certification will help you expand your professional knowledge and pursue a successful career in network security.

COURSE	BENEFITS	⌚
ISO/IEC 27033 Lead Manager	Acquire the required expertise to secure these communications in addition to implementing and managing the network security	5 Days

# CONTINUITY, RESILIENCE AND RECOVERY

## BUSINESS CONTINUITY MANAGEMENT SYSTEMS BASED ON ISO 22301

### GETTING STARTED WITH YOUR ISO 22301 CERTIFICATION

Obtaining an ISO 22301 certification will demonstrate that you have the necessary expertise to establish a framework for identifying, preventing, and reducing threats for the organization you work for, and quickly recover in case of incidents and disasters. By providing a cost-saving strategy, the organization’s financial performance is improved, and it allows the organization to continue operating efficiently during critical predicaments. In addition, it strengthens your management skills by providing you with a clear understanding of how a business continuity strategy is built. This allows you to be flexible during localized disruptions or international disasters and maintain an efficient delivery of services even when the business is facing a crisis.

### WHY GET ISO 22301 CERTIFIED

Between the unpredictability of natural disasters, information security breaches, and incidents of different nature, preparedness can make any organization stand out in the crowd and predict the future of their business. The need for professionals in this field has always existed. A certification in this field gives you the opportunity to get employed by different organizations so as to help them be resilient and minimize major losses and the recovery time of critical functions. Helping organizations prepare for the unexpected and ensure that critical operations continue to be available without interruptions is a must in today’s unpredictable business environment. Whether you choose to pursue a career in implementation or auditing, our certification opportunities are available to help you pave the way to success.

COURSE	BENEFITS	
ISO/IEC 22301 Lead Implementer	Gain a comprehensive understanding of the BCMS implementation techniques and learn how to lead a team in implementing a BCSM based on ISO 22301	5 Days
ISO/IEC 22301 Lead Auditor	Obtain knowledge and become competent to audit an organization’s BCMS against the requirements of ISO 22301	5 Days

## DISASTER RECOVERY

### GETTING STARTED WITH YOUR DISASTER RECOVERY CERTIFICATION

Gaining this certification demonstrates your determination to achieve a certain level of professional competence in the industry. It also validates that you have the expertise to support an organization in implementing, maintaining and managing an ongoing Disaster Recovery Plan as part of a reliable backup and recovery plan. As a result, you will help organizations enhance their level of preparedness in order to keep the business running in case of human or naturally triggered disruptions in the IT infrastructure

The training course contains examples based on real-life scenarios, as such you will gain hands-on experience and design a Disaster Recovery Plan, enabling you to provide a sense of security for organizations by minimizing the risk of delays and assuring the reliability of standby systems

*“93% of companies without Disaster Recovery who suffer a major data disaster are out of business within one year.”  
(Hughes)*

### WHY GET DISASTER RECOVERY CERTIFIED

There are many career paths you can take as a disaster recovery professional, and this certification will serve as an accurate portrayal of what you can do. The knowledge and skills mastered during this training course will ensure that the organization you work for has an effective system in place for the backup and recovery of key activities in order for the organization to quickly get back on track and preserve its reputation with customers and partners in case of a disaster. In unpredictable events of any sort, your expertise will serve organizations in increasing the likelihood of business survival and making sure that they are operating in compliance with industry regulations.

COURSE	BENEFITS	
Disaster Recovery Manager	Gain a comprehensive understanding of the BCMS implementation techniques and learn how to lead a team in implementing a BCSM based on ISO 22301	3 Days
Disaster Recovery Lead Manager	Obtain knowledge and become competent to audit an organization’s BCMS against the requirements of ISO 22301	5 Days

## RISK MANAGEMENT BASED ON ISO 31000

### GETTING STARTED WITH YOUR ISO 31000 CERTIFICATION

Risk has a constant presence in the business world. Its presence reflects the need for competent professional who have the skills and knowledge to properly deal with them. Getting started with your ISO 31000 certification is a significant proof of your commitment and validated capabilities of improving operations efficiency governing and managing organizational risks. It will enable you to structure a Risk Management Framework based on international best practices which facilitates the identification, analysis, treatment, assessment and evaluation of risks that are or can be faced by an organization. Moreover, this certification will help you to gain the skills to analyze and assess different factors that will improve management techniques across the organization where you operate and improve your personal performance and resilience.

### WHY GET ISO 31000 CERTIFIED

Risk management is a key driver for success and an important part of strategic and operational planning, management decisions, and governance. Getting your ISO 31000 certification helps you engage in professional development and stand out in a competitive marketplace as organizations are constantly in need of such professionals. Risk management is nowadays a crucial component for each organization, and your competence and skills will ensure that the organization has in place an effective risk management program based on best practices, which will enable them to manage risks effectively in order to perform well in an environment full of uncertainties.

COURSE	BENEFITS	
ISO 31000 Risk Manager	Develop the competence to implement Risk Management Processes in an organization by following ISO 31000 guidelines.	3 Days
ISO 31000 Lead Risk Manager	Master the implementation of a Risk Management Process based on ISO 31000, and by using risk assessment methodologies provided by ISO 31010.	5 Days

## PRIVACY INFORMATION MANAGEMENT SYSTEMS BASED ON ISO/IEC 27701

### GETTING STARTED YOUR ISO 27701 CERTIFICATION

The ISO/IEC 27701 certification proves that you have the capability to support an organization in effectively planning, implementing, managing, monitoring and maintaining a privacy information management system (PIMS) by enhancing the existing information security management system (ISMS). Thus, you can help organizations assess, treat and reduce risks associated with the collection and processing of personally identifiable information (PII). Taking into account the increased need for privacy and protection of PII during the recent years, the ISO/IEC 27701 certified individuals prove that they are competent to help organizations implement an effective management of PII and comply with data privacy regimes' requirements.

*According to Indeed, the number of openings with the terms "data privacy" or "data protection" in their titles have increased 75% over the past four years.*

### WHY GET ISO/IEC 27701 CERTIFIED

Current technology and use of social media have expanded the scope of PII by including a wide range of information used to identify an individual. Hence, the protection of PII has become a serious concern that requires commitment from organizations so as to prevent potential PII breaches and violation of the data protection laws and regulations. Getting certified against this newly published standard will help you stand out from the crowd and help organizations be among the first to implement a PIMS to protect the confidentiality and preserve the integrity of the PII it collects, processes, stores and transmits.

COURSE	BENEFITS	
ISO 27701 Lead Implementer	Acquire the ability to support an organization in planning, implementing, managing, monitoring, and maintaining a PIMS based on ISO/IEC 27701	5 Days
ISO 27701 Lead Auditor	Develop the knowledge and skills to perform a PIMS audit based on audit best practices.	5 Days

## ANTI-BRIBERY MANAGEMENT SYSTEMS BASED ON ISO 37001

### GETTING STARTED WITH YOUR ISO 37001 CERTIFICATION

This certification validates your knowledge and competencies toward implementing and managing an Anti-Bribery Management System with internationally recognized anti-bribery best practices. The knowledge and skills gained in this training course will enable you to implement the necessary measures to prevent, detect and address bribery before it impacts an organization. Furthermore, the ISO 37001 certification is a powerful factor to differentiate you in a competitive work environment.

In addition, you can advance your skills in the auditing field by attending the respective Lead Auditor training course and enabling yourself to develop the skills and knowledge to audit an ABMS by applying widely recognized audit principles, procedures and techniques

*‘ Estimates show that the cost of corruption equals more than 5% of global GDP (\$ 2.6 trillion, World Economic Forum) with over \$ 1 trillion paid in bribes each year (World Bank)’*

### WHY GET ISO 37001 CERTIFIED

Fighting bribery is one of the biggest challenges that businesses are facing today. Starting your certification journey against ISO 37001 makes you an essential ingredient in the ongoing effort to reduce bribery risks. Your expertise in anti-bribery management and the implementation of efficient measures gives the organization you are working for the opportunity to promote confidence, credibility, and reliability to stakeholders and customers. It will also provide them with the necessary measures to prevent, detect, and address bribery while avoiding reputation damage and costs

COURSE	BENEFITS	
ISO 37001 Lead Implementer	Master the implementation and management of Anti- bribery Management Systems (ABMS) based on ISO 37001.	5 Days
ISO 37001 Lead Auditor	Develop the expertise to audit an ABMS to ensure that an organization is competent in maintaining its management system based on ISO 37001.	5 Days

## GENERAL DATA PROTECTION REGULATION (GDPR)

### GETTING YOUR GENERAL DATA PROTECTION REGULATION CERTIFICATION

Besides violating the fundamental rights and freedoms of persons, not complying with data protection regulations can lead to risky situations that could harm an organization’s credibility, reputation and financial status. This is where your skills as a Data Protection Officer come to place.

The PECB GDPR — Certified Data Protection Officer training course will help you acquire the knowledge and skills to serve as a Data Protection Officer (DPO) so as to help organizations ensure compliance with the General Data Protection Regulation (GDPR) requirements, protect fundamental rights of the data subjects, and ensure harmonized processing and control of personal data.

### WHY GET GDPR-CDPO CERTIFIED

Your online presence is constantly changing under the influence of new technologies. In this light, gaining customer trust and becoming credible is every modern-day organization’s goal. Appointing a CDPO enables organizations to implement the necessary measures to prevent personal data breaches and to ensure a higher level of data security while processing and transferring personal data and exchanging information. This will consequently help them minimize security incidents, increase efficiency and effectiveness, and build customer trust. Taking into account where the online environment is headed, opportunities for you to start and practice this profession are countless.

COURSE	BENEFITS	
GDPR Foundation	Become familiar with GDPR requirements and data protection principles provided by the GDPR.	2 Day
GDPR - Certified Data Protection Officer	Obtain all the competencies and knowledge necessary to lead all the processes for implementing and complying with the GDPR requirements in an organization.	5 Days

# QUALITY, MANAGEMENT AND SUSTAINABILITY

## QUALITY MANAGEMENT SYSTEMS BASED ON ISO 9001

### GETTING YOUR ISO 9001 CERTIFICATION

This certification will demonstrate that you possess the necessary expertise to effectively support an organization in implementing and maintaining the best quality processes. You will be able to set out areas of responsibilities throughout the process, which will address the risks and opportunities leading to overall performance improvement. Furthermore, you will be able to help organizations deliver consistent services through the effective use of resources so as to reach their objectives faster. This will enhance your personal performance, while at the same time improving the quality of an organization’s products and services.

### WHY GET ISO 9001 CERTIFIED

Quality is the defining characteristic that each organization strives to achieve. ISO 9001 certified professionals are considered as a strong asset to any organization. Meeting the future needs and expectations is a big challenge for organizations that operate in any industry, especially in today’s increasingly dynamic environment. Thus, in order to accomplish organizational objectives, it is important to understand the necessity of hiring experts in this field. Certified professionals will help organizations establish a set of processes and systems which will positively engage employees, build a continual improvement culture, and lead to customer satisfaction. Moreover, it will improve an organization’s credibility and image by showing that they have met the necessary requirements. This, in turn, will direct customers to choose that organization among the rest, and help in your professional development.

COURSE	BENEFITS	
ISO 9001 Lead Implementer	Develop the necessary expertise to support an organization in establishing, implementing, managing and maintaining a Quality Management System (QMS)	5 Days
ISO 9001 Lead Auditor	Develop the necessary expertise to perform a Quality Management System (QMS) audit by applying widely recognized audit principles, procedures and techniques.	5 Days

## AEROSPACE QUALITY MANAGEMENT BASED ON AS9100

### GETTING YOUR AS9100 CERTIFICATION

Being AS9100 certified demonstrates that you can apply the best practices of aerospace industry, which enables you to produce high quality products and services. Also, considering that the aerospace industry is particularly famous for demanding customers and strict regulations, the certification against this standard will allow you to anticipate the customers' future needs, while at all times maintaining integrity and compliance to regulatory requirements.

### WHY GET AS 9100 CERTIFIED

Aerospace Quality Management will demonstrate that your organization has the ability to utilize better the abilities of its people, and meet the customer and regulatory requirements, which results in increased confidence, satisfaction and opportunity to achieve competitive advantage. Moreover, considering the ever- increasing complexity of supply chains, the organization will be able to demonstrate commitment to quality, on-time delivery, and ensure reliability while guaranteeing continuous improvement.

# OTHER PECB / SABYTEL ISO COURSES

## PROJECT MANAGEMENT BASED ON ISO 21500

### GETTING STARTED WITH YOUR ISO 21500 CERTIFICATION

The ISO 21500 certification is a sound confirmation of your managerial capabilities. It will demonstrate that you have understood the essential concepts and processes required to successfully manage and deliver projects regardless of their complexity, size or duration.

You will gain insights on how to test whether the different assumptions and chosen approaches of diverse projects are in line with the organization’s policies, systems, and objectives. This certification proves your ability work on international projects and your flexibility as an employee.

### WHY GET ISO 21500 CERTIFIED

This certification helps you to grow your career opportunities and your team-building skills and reach a greater level of commitment with your team members. It will enable you to be more confident and competent to define the proper resources needed to deliver projects on time and on budget. The concepts and processes of Project Management will increase the operational performance and reduce the costs of the organizations you are working for. The latter can be achieved by avoiding the costs involved and allocating the resources or funds to other relevant parts of the projects. Furthermore, your knowledge on the matter helps your organization understand the essential principles of project management and improve its internal communications. The improved internal communications will enable the simplification of the terminology and the transfer of knowledge between projects.

COURSE	BENEFITS	
ISO 21500 Lead Project Manager	Acquire the expertise to lead an organization and its team to implement, manage and maintain projects based on ISO 21500.	5 Days
ISO 21500 Lead Assessor	Effectively evaluate a project’s performance and determine whether it is being managed based on ISO 21500 guidelines and best practices.	5 Days

## SUPPLY CHAIN SECURITY MANAGEMENT BASED ON ISO 28000

### GETTING STARTED WITH YOUR ISO 28000 CERTIFICATION

This certification demonstrates that you are an asset to your organization and that you are a trustworthy expert. It enables you to help the organization in establishing a Supply Chain Security Management System (SCSMS) that ensures the sufficient management and control of security and threats, coming from logistical operations and supply chain partners. It will also improve your efficiency in daily tasks and benchmark your performance on supply chain security based on the best international practices. Ultimately, the ISO 28000 certification ensures that you have gained the decision-making skills, particularly in relation to the distribution of resources, which should be done based on a process of effective risk assessment.

### WHY GET ISO 28000 CERTIFIED

Supply chain security is of high priority for organizations as a breach within the system could damage and disrupt operations. That is why professionals in this field are always required. Obtaining this certification is therefore important and will have a direct impact on the level and security of your organization's supply chain. It takes into account not only the organization's security, but also the security of the goods it protects. Your organization will be able to determine if appropriate security measures are in place and protect their properties from various threats.

COURSE	BENEFITS	
ISO 28000 Lead Implementer	Acquire the expertise and capacity to analyze and make decisions in the context of the ISO 28000 implementation.	5 Days
ISO 28000 Lead Auditor	Be able to understand the purpose of a SCSMS and to conduct an audit in order to secure the compliance of MS with ISO 28000 requirements.	5 Days

## ASSET MANAGEMENT SYSTEMS BASED ON ISO 55001

### GETTING YOUR ISO 55001 CERTIFICATION

The ISO 55001 certification will prove that you have the expertise to plan, implement, manage and continually improve an Asset Management System or audit one against the requirements of the standard. The ISO 55001 training course are designed specifically to equip you with the skills to properly review processes, procedures and asset performance, which lead to the acquisition of constructive feedback regarding the asset status and condition.

It allows you to stand out in the market by having the knowledge and ability to establish an Asset Management System for an organization that realizes the value of its assets and demonstrates social responsibility as well as commitment to different business cultures.

### WHY GET ISO 55001 CERTIFIED

In today's world of complex and ever-changing financial marketplaces, ISO 55001 certification is crucial in proving the ability to run a more streamlined operation and a good corporate reputation. Moreover, this certification helps you as an individual to differentiate yourself from other professionals involved in the assets management.

Organizations are constantly on the lookout for professionals in this field as such an expertise will help them enhance their asset life cycle with a significant increase on asset performance, improvement of return on investment and reduction of cost without sacrificing the organization's performance.

COURSE	BENEFITS	
ISO 55001 Lead Implementer	Develop your skills and knowledge to support an organization to implement, maintain and improve the AMS based on ISO 55001.	5 Days
ISO 55001 Lead Auditor	Be able to audit an AMS and to manage a team of auditors based on ISO 55001 requirements.	5 Days
